“ Had some great times at Dana even though you aggravated me every time you saw me. I loved every minute of it, and the world will be a lot smaller without you!

“ I enjoyed having Kenneth as a friend, classmate and a team mate on the football team. I remember him as an all in player if I remember correctly he broke both Collar bones first one and then the other but he kept playing after recovery. The last time I saw him was at our 30 year class reunion. Rest In Peace my friend.

“ I have really missed talking smack with Kenneth about high school football before he retired from Dana. The last time I seen him was before a softball game it had been awhile but we started right where we had left off lol. I will truly miss that and remember them days all my life. This is for you my friend Go big blue! 🥺
